

# Important Notice to Customers

In recent years, the importance of anti-money laundering and combating the financing of terrorism ( “AML/CFT” ) has been growing as a priority issue that both Japanese and international community needs to address. In cooperation with relevant ministries and agencies, banks are implementing AML/CFT measures to effectively tackle the money laundering and terrorism financing techniques that are becoming more and more complicated and sophisticated.

In such circumstances, the Financial Services Agency has developed and issued the “Guidelines for Anti-Money Laundering and Combating the Financing of Terrorism” in February 2018 to provide essential elements on effective AML/CFT measures for financial institutions.

Based on the Guidelines, banks are required to take enhanced measures as described below, which depend on the nature and specific circumstances of the transaction. We appreciate your understanding and cooperation on this matter.
